ÅLAND ISLANDS

CERTIFICATE OF COMPLETION

Sagynbek Osmonaliev

date of birth | 24.12.1993

has completed the

2-year grit:lab program on the Åland Islands 2024-2026

with a **specialization in**
Cloud DevOps

The program is based on the 01Edu peer-to-peer learning curriculum

Mariehamn, Åland Islands, Finland 21.08.2026

Anna-Lena Svenblad
Director, grit:lab

Christer Fahlstedt
CEO, Paf

Appendix: List of completed mandatory modules

Sagynbek Osmonaliev

Date of birth: 24.12.1993

1. Go Module

No.	Completed mandatory activities	Experience points (k.B)	Description
1.1	Go Piscine	-	Introduction to the fundamentals of Golang
1.2	Go Reloaded	5.00	Build a text processor
1.3	ASCII Art	6.13	Build a text-to-ASCII graphic converter
1.4	ASCII Art Web	9.20	Host a web GUI for the text-to-ASCII graphic converter
1.5	Groupie Tracker	24.5	Build a website to visualize artist performance date
1.6	Lem In	34.4	Build a digital version of an ant farm
1.7	Forum	76.3	Build a web forum

2. JavaScript Module

No.	Completed mandatory activities	Experience points (k.B)	Description
2.1	Javascript Piscine	-	Introduction to the fundamentals of JavaScript
2.2	Make Your Game	147.00	Create a 60-FPS single-player game
2.3	Real-Time Forum	104.00	Create a single-page application forum
2.4	GraphQL	100.00	Create a hosted profile page using GraphQL to query data
2.5	Social Network	480.00	Create a Facebook-like social network
